## SECURITY SERVICES

# Mobile Surveillance. We protect your business. And help it run better.

Opportunities and threats to your business are everywhere. That's why more and more businesses are turning to us for mobile surveillance systems that deliver real-time response and protection. Our self-contained Mobile Surveillance Units do more than merely watch out for crime. They can also reveal wasted time and resources, to help your business be more productive.

Rugged, tamper-resistant and compact, our Mobile Surveillance Units employ super-acute, 360-degree vision that sees up to 500 feet in total darkness. They record high-res images of the scene and wirelessly transmit them to our Master Control Center, which is manned 24/7 for uninterrupted monitoring and security; and to you, so you can observe your site from anywhere in the world.

The Mobile Surveillance Unit is armed with advanced technologies like intelligent video monitoring to instantly alert your organization when a situation arises – whether it's rising water, unauthorized personnel on site, a safety infraction, medical emergency or something else.

### AT A GLANCE

With our Mobile Surveillance system, you're always alert to what's going on at your facility. The advanced cameras and video monitoring provide around-the-clock surveillance, enabling real-time response.

- Helps secure your physical assets and protect staff and visitors.
- Helps apprehend criminals. Deters theft, vandalism, loitering and other undesirable activities.
- Serves as a productivity tool by revealing inefficiencies and wasted resources.

### ADVANCED SECURITY TECHNOLOGY

Precision technology puts our mobile unit at the forefront of surveillance capabilities:

- Intelligent video monitoring
- Global Positioning Systems (GPS) tracking

### APPLICATIONS

Our mobile unit is easy to set up and adapts even to the harshest environments. It's an ideal solution for countless situations, including:

- Construction sites
- Special events
- Parking lots
- Disaster relief sites
- Local and federal security zones
- Military and border surveillance
- Short- and long-term surveillance

### CUSTOMIZED PRODUCTS AND SERVICES

Our security professionals will tailor our services to your specific needs. We will manage your project from start to finish, including consultation, setup, installation, reporting and ongoing support.
