TRACKER™**

SharpStation™ Program

Safely dispose of sharps used in public places.

For people needing to self-inject their medications in public places, Waste Management's MedWaste Tracker SharpStation Program offers an easy, practical way to dispose of these potentially dangerous materials.

Safely contain. Properly dispose. Protect.

The MedWaste Tracker SharpStation has two components. The sharps are deposited into a 5.4-quart container inside a lockable stainless steel cabinet that's wall mounted. Once that container is full, it can be safely stored inside the 28-gallon MedWaste Tracker, which holds approximately eight individual 5.4-quart containers. When the 28-gallon MedWaste Tracker is full, simply seal it and ship it to Waste Management for proper treatment and disposal. All mailing materials are provided, and postage is included in the purchase price.

For more information, call your Waste Management Healthcare Solutions specialist today at 1-877-236-8418 or visit us at healthcare.wm.com.

Did you know?

Over 225,000 needlestick injuries occur each year outside the healthcare industry.*

Today, a number of new laws address the safe disposal of medical syringes in public places. Waste Management's MedWaste Tracker SharpStation is an easy way for public venues to comply. SharpStation is strong enough for use in public restrooms in:

- Office buildings
- Restaurants
- University buildings
- Corporate campuses
- Airports
- Sports arenas
- Amusement parks
- Lodging

SharpStation™ Program

Many businesses recognize the need for confidential, safe solutions for sharps disposal.

Easy as 1-2-3.

1 - Easy to get.

Order the MedWaste Tracker SharpStation Program by calling 1-877-236-8418 and receive it within a few days. To view a catalog of related products online, visit healthcare.wm.com.

2 - Easy to store.

Visitors and employees simply deposit used syringes and lancets into a tamper-resistant receptacle in the locked, wall-mounted cabinet. When the container is full, authorized personnel can store it in the 28-gallon MedWaste Tracker.

3 - Easy to send.

When the MedWaste Tracker is full, simply close and seal the box according to directions. All packing materials are provided, and postage is pre-paid. Call the number on the instructions to request a priority pick-up or give the box to a postal carrier for transport to us. We'll treat and dispose of the sharps and keep all required records for you. You can order tamper-resistant container replacements from Waste Management as needed.
