

## PVP

### VIP Flushable POL.

Great for office events, parties, or weddings.

Fresh Flush model with sink

## POL

### Standard POL.

Great for events or construction sites. These are offered in blue only.

## PHC

### POL Handicap accessible.

Used for all services. All units are blue.

## PHW

### **Handwash Station.**

A great addition to any event! Color is as shown.

## SGU

### **POL Sling Unit.**

Used for Hi-Rise construction projects and will put you in compliance with health code requirements. All units are blue.

## PHI

### **POL Hi-Rise**

Used on Hi-Rise construction projects. The unit can be moved from floor to floor via elevator or lift. Please note there is no roof to allow mobility. We offer a tan fiberglass model.

## PWU

### **POL Wheel Unit.**

The standard Port-O-Let is secured onto the trailer. Great for roadway, railroad, farm, county chain-gang and flood control projects. The trailer allows the POL to be hauled to remote or quick-moving locations, then returned to the established project yard on service day for servicing.

INFO

## PCC

### **Containment Pan.**

Used primarily on construction projects where SWPP (stormwater pollution) and SPCC (spill control) plans are in place.

CONTAINMENT  
TRAYS

## P3G

### **Holding Tank**

Used at events where tank is plumbed from sinks in mobile kitchens. Used for grey/black water only, no grease or unacceptable waste. The top of tank must be left exposed for service to completely remove waste.

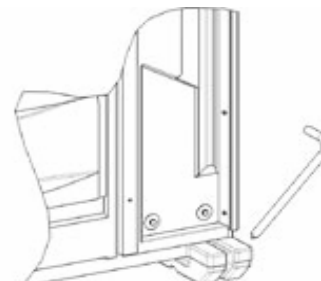

300 GALLON

## PSA

### **Staking Fee**

This product is used to secure the POL to the ground to prevent tip over during high winds. These are popular during the monsoon.

## PCP

### Crowd Pleaser

Great for large events. Unit requires 2-30amp/3 Phase connection (3 plugs for men's side, 3 plugs for womens) to supply interior/exterior lighting, air conditioning/heater and stereo. It also requires public water source that connects to standard garden hose to supply water for handwashing and flushing.

**32 ft.**
