

C&D Recycling

We'll Help You Maximize Your Recycling

In most cases, Waste Management can recycle up to 80% of a project's C&D waste, including:

- Aluminum and other metals
- Asphalt
- Concrete
- Drywall
- Plastic
- Rebar
- Steel
- Wood

Benefit from Our Expertise

A qualified Waste Management C&D expert will:

- Coordinate the removal of your waste and recycling products
- Design removal programs that meet AB939 recycling compliance
- Address safety issues
- Help with the billing process

Single Container Recycling Makes Recycling Easy

All of your project's recyclable waste, wood, concrete, asphalt and metal goes into a single container. There's no need to sort materials or pay for unnecessary bins!

One Source for All Your Construction Waste Needs

Our services include:

- Solid waste collection and recycling
- Storage boxes
- Flexible, timely pickup and delivery
- Roll-off containers ranging from 10 yards to 40 yards
- Heavy-duty all-steel container construction
- Delivery and placement where you need it
- Ground-level loading to eliminate the need for heavy equipment
- Consolidated invoicing

Reducing Your Wasteline Can Save Your Business Money

In Your Office Communications

- Use double-sided copying to reduce paper use and mailing costs
- Use routing slips to circulate documents and periodicals
- Replace individual office trash cans with recycling cans and utilize one central office trash can to encourage employees to recycle
- Use e-mail for memo distribution

In Your Business Shipping

- Avoid over-packing of items
- Ship your products on returnable or reusable pallets or in reusable containers

In Your Purchasing Practices

- Buy goods made with recycled materials
- Consider cooperative purchases with other businesses to reduce price and packaging wastes
- Buy supplies in bulk

In Your Snack Rooms

- Encourage employees to reuse plates, cutlery, glasses and coffee mugs
- Use recycling containers

...and Remember

- Make sure to have enough right-sized waste containers on hand and schedule collection days with sufficient frequency to avoid over-filled containers.

Help us to avoid litter and keep our communities clean!
