

## Composting Solutions

Serving communities throughout Central and Southern California

We are pleased to have recently acquired Harvest Power California, LLC's compost facility in Tulare and are thrilled to welcome its customers to our Waste Management family of customers!

As the nation's leading environmental services provider, we are committed to working for a sustainable tomorrow by doing the rights, the right way.

### Our Services

- **Green Waste Recycling**
- **Food Waste Recycling**
- **Manure Recycling**
- **Custom Engineered Blending**
- **Bulk Deliveries**

### Our Products

We offer a variety of products. From our OMRI-Listed soil amendment made with a blend of Dairy Manure Compost and GreenWaste Compost to our soil blend, made of wood fines and greenwaste compost to custom agriculture blends, our team will help find the product that best suits your needs.
