

Waste Management of the Inland Empire reminds customers of Independence Day holiday schedule, Offers tips to go “Red, White and Green” this Fourth of July

Trash and recycling services delayed one day in observance of Independence Day

Corona, Calif.- June 19, 2013 - Waste Management of the Inland Empire’s curbside residential trash and recycling and commercial pick-up schedule will be delayed by one day beginning Thursday, July 4 and through the remainder of the week in observance of Independence Day.

This means customers in the following cities who receive service on Thursdays and Fridays should place their carts out for pick-up one day later than usual this week:

- Jurupa Valley
- Eastvale
- Banning
- Beaumont
- Chino
- Corona
- Menifee
- Moreno Valley
- Murrieta
- Norco
- Wildomar
- Communities in unincorporated Riverside County and San Bernardino County

All Waste Management of the Inland Empire operations will be closed on Thursday, July 4 including the hauling operations, customer service center, transfer station and landfill. Normal operations will resume on Friday, July 5.

With Fourth of July party planning underway, Waste Management would like to share a few eco-friendly party tips to go red, white, and green this Independence Day:

1. Become independent of disposable plates, cups and utensils and bring reusable party ware. This is not only good for the environment, but also saves money in the long run.
2. Set up a specially marked recycling container to collect aluminum cans and plastic bottles so that they don’t end up in the trash.
3. Try petroleum-free charcoal starter, which is available purchase at many household discount and hardware stores.
4. Use aluminum foil instead of plastic wrap to cover and store food. Clean foil can be cleaned and reused, or crumpled up and tossed into the recycling cart, making it the better option.
