

CALIFORNIA MANDATORY COMMERCIAL RECYCLING

California State law requires all businesses that generate four or more yards of waste per week, to recycle. All multi-family complexes with five or more units are required to recycle, regardless the amount of waste generated.

How Can You Meet This Mandate?

Options include:

1. Subscribe to curbside recycling services
2. Self-haul recyclables to a recycling center
3. Donate your recyclables

Did you Know?

WM produces more renewable energy than the entire solar industry in the United States.
