Manager's Report

Hello, neighbors! I'm proud to share an update on the continued community engagement efforts at Mesquite Creek Landfill. Our team has been actively involved in recognizing our people, supporting local organizations, and contributing to environmental stewardship across New Braunfels.

In recognition of National Waste & Recycling Worker Appreciation Week, we took time to thank the drivers and operators who play such an essential role in our operations. We provided brown bag lunches as a small gesture of appreciation for their hard work, professionalism, and daily commitment to keeping our communities running safely and smoothly.

Supporting our local community remains a priority for our team. In June, we participated in the New Braunfels Public Library's Summer Reading Kickoff Celebration, connecting with local families and supporting an initiative that encourages learning and engagement throughout the summer months. Later this July, we will be donating school supplies to the New Braunfels Food Bank, helping ensure students in our area are prepared for the upcoming school year. We will also be on site at the food bank's annual back to school event on August 15.

On June 26, our team spent time working in the habitat garden, focusing on the removal of invasive plant species. Efforts like these are an important part of maintaining healthy habitats and reflect our ongoing commitment to environmental responsibility. We're also pleased to support the upcoming Party for the Planet with the City of New Braunfels on July 17. This free family event provides a great opportunity to come together with the community and promote environmental awareness. More information about the event here: <https://www.newbraunfels.gov/partyfortheplanet>

I'm grateful for the dedication our team continues to show both on-site and in the community. Their efforts truly reflect the values we stand for at Mesquite Creek Landfill. Thank you for staying informed, and please don't hesitate to contact the landfill if you have any questions.
