Saturday: 8am to 3:30pm

#### Payment Methods

## Important Information

### Random Load Checks

This facility conducts load checks. Illegal disposal of materials may result in further action as described by State law. Please cooperate with landfill personnel if they request to inspect and document your refuse load.

### No Scavenging Allowed!

To protect human health and the environment, State law prohibits the removal from Waste Management's facilities of any materials intended for disposal. Materials recovered and recycled in accordance with State issued permits excluded.

### Additional Resources

Contact WM's customer service at (800) 675-1171 or visit [www.wm.com](http://www.wm.com) for more information related to trash and recycling services, holiday schedules.

### Recyclable Material Definitions

**Clean Dirt:** Granular soil such as clay, sand, or silt that breaks apart when handled by light duty construction equipment such as a small backhoe or skip loader. No trash, metal, wood, roots, or grass contaminants. Loads with quantities greater than 5% of grass and/or root contamination, excessive rock, concrete, or asphalt will be charged as trash. Projects from a single location greater than 500 tons or come from an industrial Location require pre-approval.

**Clean Concrete:** Any combination of rock, concrete, gravel, or brick, which is less than 24 inches in any 2 dimensions. Loads containing debris exceeding this size limitation will be charged as trash and disposed accordingly. Concrete debris should have minimal re-bar protruding from the individual pieces of concrete. No trash, excessive metal, wood, roots, or grass contaminants. Loads with soil content greater than 10% will be charged as trash. Projects from a single location greater than 500 tons or come from an industrial Location require pre-approval.

**Clean Asphalt:** Asphalt, or asphalt grindings which is less than 24 inches in any 2 dimensions. Loads containing debris exceeding this size limitation will be charged as trash and disposed accordingly. No trash, excessive metal, Petromat, wood, roots, or grass contaminants. Loads with significant quantities of grass and/or root contamination will be charged as trash. Loads with soil content greater than 10% will be charged as trash. Projects from a single location greater than 500 tons or come from an industrial Location require pre-approval.

**Industrial Material:** Includes, but is not limited to, all non-Asbestos projects greater than 500 tons or material generated from an industrial location. Industrial & soil waste requires pre-approval: Inert soil, industrial soil, industrial process wastes, asbestos containing waste, inert sludge, and debris require pre-approval prior to delivery and acceptance. Loads not pre-approved will be rejected.

**Personal Protective Equipment (PPE) is required at all times: High Visibility Vest, Hard Hat protective footwear, and safety glasses.**
