

Skyline Landfill Summer 2025

Manager's Report

Hello neighbors! This summer's heavy rain has kept our team busy. To ensure clean and safe conditions for visitors and residents, we've been actively mowing and maintaining the landfill property. We also continue daily street sweeping along Central Street to reduce mud and debris caused by the wet weather.

Trash volumes at the landfill have remained steady, keeping us busy and operations running smoothly. On the north side of the property, we've made several improvements, including upgrading the access road and planting new greenery along the slope to improve both appearance and erosion control.

We also partnered with the Wildlife Habitat Federation of Texas to reseed a large, certified habitat area with native plants. This effort helps support local wildlife, attracts pollinators, and enhances the site's natural beauty. It is just one of the many ways WM is working to be a good neighbor and environmental steward.

As the City of Ferris continues to grow, a revised amendment to the Skyline Landfill agreement has been adopted and signed by the city, expanding the number of households receiving free residential waste service. The revised agreement ensures all residents receive this free service.

WM is also proud to invest in the future of our community through our annual scholarship program. Education opens doors, and we're committed to helping local students pursue their goals with confidence. On May 22nd, WM awarded a total of \$10,000 in scholarships to 11 outstanding Ferris High School seniors. These students were selected for their exceptional academic achievement, active community involvement, and dedication to their futures. By easing the financial burden of higher education, we hope to empower the next generation of leaders, innovators, and change-makers right here in Ferris.

Thank you for your continued support as we work to serve both the environment and our growing community.

Ferris High School scholarship recipients: from L-R, Arron Hernandez, Carina Martinez, Jennifer Luna, Angel Vazquez, Vivian Garcia, Misty Adams, WM Public Affairs Specialist, Sofia Lopez, Alexander Martinez, Lilyana Sanchez, Arabella Chavarria, Victoria Rodriguez, and DaShaylen Rouwtt.
