Williamson County Landfill

Fall 2026

FORREST TUBB
Senior District Manager

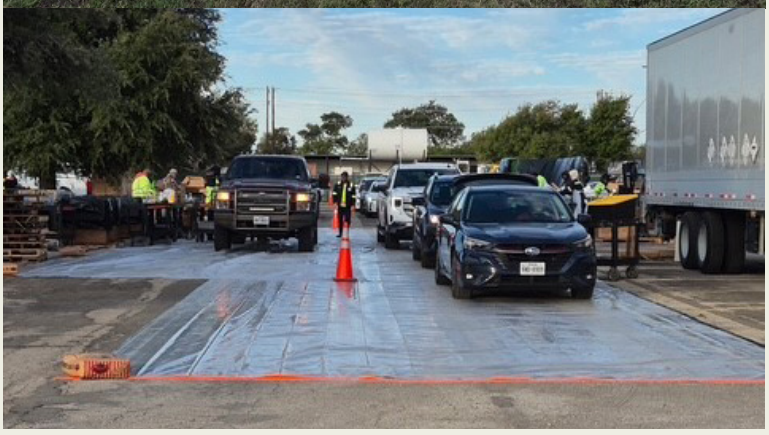

Manager's Report

Hello, neighbors! It's finally time for a new season. No matter what the weather says, Texas "false fall" is better than no fall at all. While things have remained relatively quiet on the landfill side over the past few months, plenty of meaningful activity is still happening at Williamson County Landfill through community partnerships and work in the garden.

On October 17, we hosted our fall household hazard waste collection event (photos below). We had a fantastic turnout with 353 cars coming through the event. We will announce our next event early in 2027. In the meantime, I'd like to encourage residents to continue to be good stewards of the environment and manage household hazardous chemicals responsibly and follow safe battery disposal practices. More information about battery disposal can be found here: https://batterysafetynow.org.

I am also proud to announce that WM once again served as a sponsor of the Hutto Olde Tyme Days and the Williamson County Fair and Rodeo. Both events are treasured traditions in Williamson County, bringing together families, businesses, and community organizations to celebrate the area's rich history, agricultural heritage, and hometown spirit. Through our continued support, WM is honored to help create opportunities for neighbors to connect, celebrate local traditions, and strengthen the communities we serve.

Looking Ahead

- WM will host a booth at the 2nd Annual Pathways to Possibilities: Wade into Your Future on November 5. The event is an interactive career exploration day for middle school students hosted in partnership with Hutto ISD, the Hutto Area Chamber of Commerce, and Workforce Solutions Rural Capital Area at the Typhoon Texas Waterpark in Pflugerville, TX. If you have a student attending, please stop by and say, "hello."
- Green Waste: If you are doing tree trimming, we'd like to remind you that Williamson County has a clean wood drop off area. Upon arriving at the gatehouse, inform the staff that you have clean wood that you are disposing of and you will receive a lower rate and be guided to the drop area. We will shred the wood and repurpose it by using it as erosin control around the landfill.

Thank you for taking the time to stay informed, and for your partnership in supporting our shared goal of being a cleaner, more sustainable community. We're proud to serve Williamson County and look forward to keeping you updated.
