Williamson County Landfill

Summer 2026

FORREST TUBB
Sr. District
Manager

Manager's Report

Hello, neighbors! My name is Forrest Tubb and I'm honored to step into the role of Senior District Manager of central Texas landfills and join the dedicated team serving Williamson County. From the very beginning, I've been impressed by the strong culture of safety, operational excellence, and community engagement that defines this site. I look forward to building on that foundation as we continue to provide reliable and responsible environmental services.

I want to extend a sincere thank you to our former Senior District Manager, Jesse Andrade, for his leadership and commitment to this team. While we will certainly miss his day-to-day presence, we are excited for him as he transitions into a new role focused on overseeing landfill safety training at WM.

This move reflects both his expertise and our organization's ongoing commitment to strengthening safety practices across all operations. I'd also like to welcome Andy Vance III, our new Operations Manager, to the Williamson County Landfill team. Joining us from the Austin Community Landfill, he brings valuable experience and insight that will further support our operational goals and team development. Please join me in welcoming him to Williamson County.

Looking Ahead

As we move into the summer months, we have several important updates and reminders to share:

- **New Cell Construction:** Progress continues steadily, and we anticipate completion of the new landfill cell by the end of July. This expansion is an important milestone that will support our long-term capacity and service commitments to the community.
- **Battery Disposal Reminder:** With summer in full swing, we encourage everyone to properly dispose of household batteries. Batteries can present fire risks when disposed of improperly, so taking a few extra moments to dispose of them correctly helps keep our community safe. Learn more at <https://batterysafetynow.org>.
- **Household Hazardous Waste (HHW) Event:** Mark your calendars for our upcoming HHW collection event on October 17th. This is a great opportunity for residents to safely dispose of materials that should not go into regular waste streams.
- **Community Engagement:** We're proud to remain actively involved in the communities we serve. Recently, we donated funds to support the Hutto ISD Back to School Rally, helping local students and families prepare for a successful school year. We're also excited to host an upcoming Native Plant Society of Texas (NPSOT) tour at the butterfly garden, highlighting both environmental stewardship and community partnership.

Thank you for taking the time to stay informed, and for your partnership in supporting our shared goal of a cleaner, more sustainable community. We're proud to serve Williamson County and look forward to keeping you updated.
