Notice of Incomplete Application
Air State Facility Permit Modification Request
for RMU-2
CWM Model City Facility
DEC ID 9-2934-00022/00233

Dear Mr. Mahar:

The Air State Facility Permit modification application (Application) submitted in February 2015, and subsequently supplemented in February 2016 and March 2016 with the submission of additional information, has been determined to be incomplete.

Comments received on the draft Air State Facility Permit modification, in August 2016, revealed deficiencies with the Application that must be corrected before it can be processed further. Specifically, the Application must be revised to include appropriate waste processing quantities to calculate the potential emissions from the facility with adequate justification to support the emission calculations.

You may contact either me at (716) 851-7165 or Michael Emery, with the Department's Division of Air Resources at (716) 851-7130, if you have any questions.

Sincerely,

David S. Denk
Regional Permit Administrator
