The WM Energy Surcharge was implemented starting with invoices generated after April 24th, 2023. The values in the table for months prior to April 2023 are provided for information only to demonstrate how the Energy Surcharge would have fluctuated based on reported fuel prices over that period of time.

The Energy Surcharge for Canadian customers was updated monthly until September 2023 when WM began to update the calculation weekly, using the most recently available Canadian National price for diesel reported by Bloomberg and the Henry Hub spot price for natural gas.
