

NEW RECYCLE RIGHT REUSABLE TOTE BAGS

We are pleased to announce that we are providing residents with a Recycle Right Reusable Tote Bag to collect recyclables in your units and conveniently carry them to the community recycling containers. The bags are durable and list what materials are acceptable to recycle right on the bag.

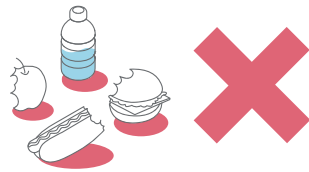

Recycling is good for our community and we're excited to take our recycling program to the next level. It's important that you only recycle bottles, cans, paper and cardboard. Recycling non-acceptable materials like plastic bags or bagged recyclables can ruin an entire load of good recyclables and result in increased recycling costs for our community.

To order additional bags, visit wmgearstore.wm.com

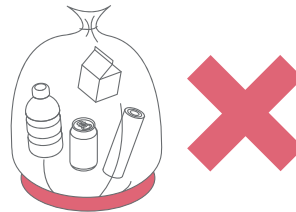

Remember these three basic rules each time you recycle:

Recycle clean bottles, cans, paper, and cardboard.

Keep food and liquid out of your recycling.

No loose plastic bags and no bagged
