WHY COMPOST?

It is now the law (SB 1383) to
compost your food scraps, food-
soiled paper, and yard waste to
prevent organic material from going
to landfill where it decomposes and
produces methane.

The organic materials collected in
your green cart are taken to a facility
where it is turned into nutrient rich compost that
makes a great soil amendment to your garden!
Using compost can also decrease water usage
through moisture retention during droughts.

Food Scraps
