

# City of Banning

## Tenant and Multifamily Waste and Recycling Service Guide

### Proud to Service the City of Banning

WM is proud to provide weekly collection services for trash, organic waste, and recyclables to the Banning community.

#### Community Clean-Up Days

The City of Banning hosts Bulky Item Community Clean-Up Days at Dysart Park. These events take place on Saturday from 8:00 a.m. to 1:00 p.m. Every third Saturday in January, April and October. \*Dates are subject to change. Please contact Waste Management or the City for verification.

During the Community Clean-Up, residents can receive free compost for home use (available while supplies last),

and paper shredding services will also be offered.

#### Acceptable Items

- Appliances: washers, dryers, freezers, refrigerators, air conditioners, microwaves
- E-waste: TVs, computers, monitors, laptops
- Household batteries
- Household items: chairs, couches, tables, box springs, mattresses, barbecues, patio furniture
- Yard waste – such as bagged yard waste, bundled branches

#### Non-Acceptable Items

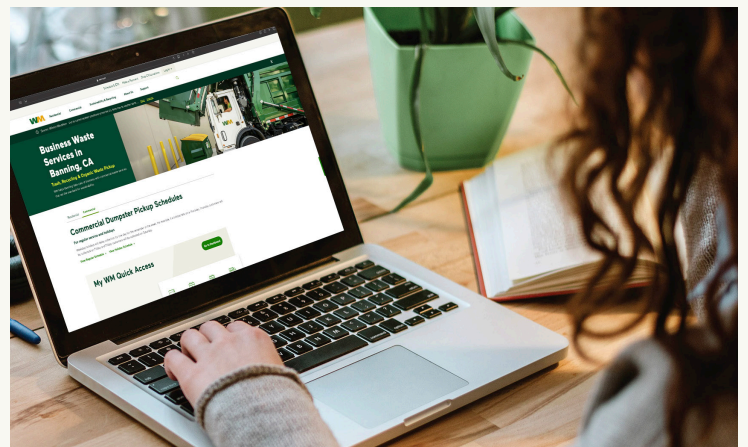

- Commercial or remodeling waste
- Gasoline
- Household chemicals: pool, pesticides, rodent poisons, or household cleaners
- Motor oil/used oil filters
- Motor parts/engines
- Paint and paint products
- Propane tanks
- Tires
- Transmission and brake fluid/antifreeze

#### Holidays

WM observes the following holidays:

New Year's Day • Memorial Day • Independence Day • Labor Day  
Thanksgiving Day • Christmas Day

If a holiday falls on a weekday, collections for the rest of the week will be pushed back a day. For example, for a Thursday holiday, service would be on Friday, and Friday service would be Saturday. For holidays on Saturday or Sunday, there are no delays.

#### Find Your Service Day

Did you know you can search by your address to find your specific service day at visit [business.wm.com/banning](https://business.wm.com/banning).

#### Recycle Right®

From the Three Basic Rules to Recycle Right® to in-depth guides and resources, you can find everything you need to recycle the right way, every day at [wm.com/recycleright](https://wm.com/recycleright).

**[business.wm.com/Banning](https://business.wm.com/Banning)**

Please contact WM at [wm.com/support](https://wm.com/support) if you need assistance in Spanish.  
Si necesita ayuda en español, póngase en contacto con WM en [wm.com/support](https://wm.com/support).

### Household Hazardous Waste

WM cannot collect household hazardous waste. For more information on collection locations and how to safely dispose of these items, please call the Riverside County Waste Management Department at (800) 304-2226 or (951) 486-3200 or visit [www.rcwaste.org/hhw](http://www.rcwaste.org/hhw) for a full list of acceptable items.

*If you have occasional excess waste, your property management may contact WM to schedule an extra pickup.*

### SB 1383 Monitoring and Enforcement

California's SB 1383 regulations require waste haulers to implement an enforcement program to monitor contamination in waste. This helps reduce contaminants, maintain clean organic waste streams, and ensure proper composting.

Contamination occurs when incorrect materials are placed in recycling or organics carts, which can damage

equipment and harm employees. Only accepted materials should be placed in these carts.

WM Smart Truck® Technology will assist in complying with SB 1383 by photographing and recording waste during collection. If contamination or overfill is detected, further actions will follow:

### Occurrences within a Calendar Year

#### 1st and 2nd Incident

- Contaminated/Overfilled cart will be serviced
- Letter will be mailed to service address informing that the subsequent incidents may be charged a contamination/overfilled fee for the 3rd and subsequent incidents

#### 3rd and Subsequent Incidents

- Contaminated/Overfilled cart will be serviced and may be charged a contamination/overfilled fee
- Letter will contain photographic documentation of contaminated/overfilled cart

### Beaumont ABOP and PaintCare Facility

Riverside County operates this ABOP and PaintCare facility throughout the year to provide residents of Riverside County a FREE and environmentally safe way to properly dispose or recycle the most common types of hazardous household waste, as well as some additional household hazardous waste items, listed below.

#### Lamb Canyon Landfill

16411 Lamb Canyon Road  
Beaumont, CA 92223

## Organic Waste Recycling

Food Waste

Yard Waste

Produce

Food Soiled Paper,  
Coffee Filters & Tea Bags

Meat, Fish & Poultry

Dairy

Bread, Pasta, Rice & Grains

The California State Legislature has enacted Senate Bill 1383 (SB 1383), which mandates that cities reduce the disposal of organic waste by 75% by the year 2025. All businesses, multifamily residences, and individual households in California are required to separate food scraps and yard debris from regular trash and place them in designated organics carts.

SB 1383 aims to reduce organic waste in landfills, lower greenhouse gas emissions, and combat climate change. Organic materials, such as food scraps, yard trimmings, and soiled paper, account for nearly half of what Californians dispose of.

### SB 1383 Frequently Asked Questions

#### What is organic waste?

Organic waste refers to any biodegradable material derived from plants or animals, excluding pet waste. Please dispose of pet waste in your trash cart. Organic waste includes food scraps, food-soiled paper, and yard waste.

#### Why is it important to recycle my organic waste?

SB 1383 was passed to divert more food waste and yard trimmings from our landfills. This effort will help reduce greenhouse gas emissions and slow down climate change. For more information, visit [www.calrecycle.ca.gov/climate/slcp/](http://www.calrecycle.ca.gov/climate/slcp/).

#### What do i need to do?

As a tenant, use your existing green waste bin to recycle food waste. Please refer to the "What Goes Where" chart to learn which items to place in your organics, recycling, and trash bins.

#### What is food-soiled paper?

Food-soiled paper includes paper products that have been in contact with liquid or solid food waste. Examples are napkins, paper plates and cups (without plastic lining), food wrappers, stained pizza boxes, and used coffee filters.

#### What is contamination?

Contamination happens when non-acceptable items are placed in the wrong cart. Contaminants can ruin an entire load of organic materials or recyclables and prevent these items from being repurposed.

# Organics | Recycling | Trash

## Right Materials - Right Container - Know Which Container to Use

### What Goes in the Organics Container:

Food Waste

Yard Waste

Produce

Food Soiled Paper,  
Coffee Filters & Tea Bags

Meat, Fish & Poultry
