## Avoid Contamination in Recycling and Organics this Holiday Season

It is no secret that there is an increase of waste during the holiday season. More deliveries, more packaging, and more cooking means we all need to be more careful in sorting recycling, organics, and trash. Here are some simple guidelines:

**Keep food scraps and food-soiled paper out of the trash.** Organic material in the landfill contributes to climate change by releasing methane gas when it decays.

**Do not bag recyclables or organics.** Plastic bags belong in the trash only, place items loose in your carts or use only paper bags for food scraps.

**Break down those boxes.** Remove all packaging material like polystyrene foam and plastic film and place in the trash. Then flatten the boxes before putting into your recycling cart.

**Not sure how or where to dispose of certain items?**

Visit [Resource.StopWaste.org](https://Resource.StopWaste.org), your online guide for reuse, repair, recycling, and safe disposal.

## Bulky Item and Extra Trash Removal

**Take advantage of the included WM service to have your bulky items and extra trash picked up, twice a year!** To set up an appointment, or for more information, call WM at 510-537-5500

*Service not available the first two weeks of January due to holiday tree pickups.*

There is no additional cost to remove the following items:

- 2 cubic-yards of garbage (about 16 large bags);
  - Must be bagged, boxed or bundled
- 3 pieces of household furniture, including carpet;
  - Each item must not weigh more than 75 lbs
- Large recyclable items including:
  - » 3 large appliances; 2 mattresses; 3 scrap metal items;
  - 2 e-waste items; and 4 passenger car tires

**To ensure your items are picked up on your appointment day, please follow the instructions on your confirmation mailer.**

## HOLIDAY TREE PICKUP

Hayward households who live in 1-25 unit properties may use the curbside pick-up. Residents in properties of more than 25 units may ask their property manager to order a holiday tree collection container.

- Monday, Jan. 5, 2026, through Friday, Jan. 16, 2026, on your regular collection day (for curbside pickup).
- Must be cut into 5 ft. lengths. Please remove all tinsel, ornaments, nails and tree stands so that the trees may be recycled.
- After Jan. 17, please place your cut-up tree in your green organics cart. Trees placed at the curb, but not in the green organics cart after Jan. 17, can be picked up for a fee.
