Recycling News

Winter 2025

We are proud to serve Businesses and Multi-Family complexes as the recycLA service provider in the West Valley and South East Valley in the City of Los Angeles.

2025 Rate Changes

Beginning January 1, 2025, a new 5% rate increase will go into effect based on multiple national indexes such as ECI-TTU, PPI-SW and PPI-T. This calculation is generated in accordance with the terms of the recycLA contract.

For more information, please visit: www.recycLA.com.

Got Boxes?

The cardboard boxes from all of those holiday deliveries are sure to pile up soon. Please remember to always flatten

cardboard boxes to make room in your recycling cart/bin for all of your recyclables.

Holidays

WM observes the following holidays:

**New Year's Day | Independence Day | Labor Day
Thanksgiving Day | Christmas Day**

Collection service will be delayed one day following the above holidays. If a holiday falls on a Saturday or Sunday, there will be no delays.

Help Prevent Truck Fires

Household Hazardous Waste such as cleaning supplies, batteries and propane tanks can spark fires in bins and collection trucks when they are not properly disposed of. These items require special handling and should never be placed inside your trash, recycling or organic waste containers. Please dispose of any Household Hazardous Waste at your nearest S.A.F.E. center. Visit: lacitysan.org/hazardouswaste to find a location near you!

We're Here to Help Make Your Recycling Program a Success!

Did you know you can schedule a free waste assessment?

WM's recycling advocates can help you determine:

- The most effective recycling program for your business
- How many containers are needed and where to place them
- How often collection should take place
- What educational tools will be the most helpful for your employees. The recycLA Program offers a variety of resources and training opportunities to help ensure that your recycling program is a success!
