

# Household Battery Recycle Tips

## It's as Easy as 1-2-3!

1

Remove the batteries from electronic devices before storing them. Cover the terminals with non-conductive tape to prevent accidental contact, which can potentially cause sparks, short circuits, or fires.

2

To prevent sparks, please make good choices when storing batteries for recycling in a non-conductive plastic, cardboard, or glass container.

3

Drop-off is easy at one of the four local drop-off sites in the City of Moorpark.

- **City Hall** – 323 Science Drive
- **The Library** – 699 Moorpark Avenue
- **The Active Adult Center** – 799 Moorpark Avenue
- **The Arroyo Vista Recreation Center** – 4550 Tierra Rejada Road

**We thank you for doing your part, one battery at a time.**
