Recycle and Redeem: California Expands Redemption Program to Accept Wine and Liquor Containers

California is taking another significant step towards sustainability. To encourage residents to practice proper sorting and recycling, the state is expanding the list of eligible beverage containers that can be redeemed at recycling centers or retailers. Now, what does that mean for residents of Nevada County, Nevada City, and Grass Valley?

Since January 1, 2024, every time you pay the California Redemption Value (CRV) fee when purchasing beverages, you have the opportunity to receive a CRV refund by simply returning wine, liquor, and juice containers for recycling. They can be redeemed at the McCourtney Road Buy Back Center. However, **wine pouches and cartons are still not accepted for curbside collection.** Please do not throw them in your recycling carts.

This initiative supports the state’s environmental goals and allows individuals to actively participate in the process of creating a greener future. Visit nevadacityca.gov for more information about solid waste in Nevada City.

Redeeming at McCourtney Road Transfer Station’s Buy Back Center

Recycling centers, such as MRTS, may pay CRV refunds by weight or by count.
