

# Mandatory Recycling For Businesses & Multi-Family Complexes

**Did You Know?** California’s Mandatory Commercial Recycling Law (AB 341) requires businesses and multi-family properties to recycle.

**COMMERCIAL  
RECYCLING  
(AB 341)**

Businesses that generate at least four cubic yards of solid waste (trash) per week and multi-family properties with five units or more, must have a recycling program in place.

**Did You Know?** California’s Mandatory Organic Waste Recycling Law (AB 1826) requires businesses and multi-family properties to arrange for organic waste recycling services.

**ORGANICS  
RECYCLING  
(AB 1826)**

Businesses and multi-family properties of five units or more, that generate two cubic yards of solid waste (trash and recycling) per week, must have an organic waste diversion program in place.

**Current Regulations**

CalRecycle has determined that statewide disposal of organic waste was not reduced by 50 percent in 2020. As a result, effective September 15, 2020, businesses that generate 2 cubic yards or more of solid waste (trash and recycling) per week must have an organic waste diversion program. As of July 1, 2020, Assembly Bill 827 mandates most businesses that are subject to AB 341 & AB 1826 must provide recycling and organics containers at front-of-house to collect waste generated by customers from products they purchase and consume on the premises. These containers must have signage and be placed adjacent to trash containers. For more information, visit <https://www.calrecycle.ca.gov/Recycle/>

**Waste Management can help your business or multi-family property comply!**
