## What is Senate Bill (SB) 1383?

California SB 1383 is a bill that sets goals to reduce disposal of organic waste in landfills, including edible food, in order to reduce greenhouse gas emissions.

Below is information on how your business can comply.

## Recover edible food

Save the maximum amount of edible food that would otherwise be disposed (e.g. in landfill or compost), so it can be used to feed people instead

## Contract

Have a contract or written agreement with each food recovery organization or service that picks up or receives edible food from your business. Contact the Salvation Army if you need an organization.

## Track & Report

Maintain records of type, frequency, and pounds of food recovered each month.
