# ADDITIONAL INFORMATION

#### **HAZARDOUS WASTE**

Hazardous items such as paint, batteries, oil, and other flammable or toxic substances should never be disposed of in trash, recycling, or organics containers. Businesses can safely dispose of hazardous materials at the Yolo County Landfill as small quantity generators. Visit yolocounty.org/landfill or call 530-666-8856 for more information.

#### **CONTAMINATION & OVERAGES**

Improper sorting or overfilled containers can result in fines for the account holder. To avoid this, make sure all waste is sorted properly and lids can fully close. When materials are mismanaged or bins are overflowing, it creates environmental hazards, disrupts service, and poses safety risks to our entire community.

## **ANNUAL BULKY VOUCHERS**

Each year, residents in multi-family dwellings will receive one annual voucher to dispose of bulky items and regular garbage at the Yolo County Landfill. Loads must be properly tarped before drop-off.

#### WM ACCOUNT

Save time and access the services you need through your WM account. You can pay bills, report missed pickups, track collections, and more. Visit **wm.com/mywm** to register or log in to your WM account.

# SB 1383 COMPLIANCE

#### **MANDATORY SERVICE**

All California businesses, multifamily complexes, and residences are required to separate food scraps, food-soiled paper, and yard debris from trash and recycling by subscribing to organics collection. Additionally, businesses must separate recyclables and subscribe to adequate recycling services. To request service or a free assessment, call WM at 530-662-8748.

#### **EDUCATION & SIGNAGE**

Property managers and businesses must educate employees and tenants about waste sorting within 14 days of their hire or move-in date. Ensure indoor trash, recycling, and organics bins are available to all customers and staff and are properly labeled. WM offers training, and signage to assist with compliance.

### **KEEPING THE STREAM CLEAN**

Only BPI-certified compostable bags are accepted in organics carts.

Empty the contents of plastic liners into your recycling bin and place the liner in the trash. Plastic bags and liners are not accepted in recycling or organics.

#### **SERVICE LEVELS**

Right Size your containers and services to avoid overage and contamination charges. Please contact Customer Service for a free waste assessment at (530) 662-8748 or WoodlandOrganics@wm.com.

See inside this brochure for importan to help your business comply with SE avoid penalties.

Polystyrene Foam

Overflowing or contaminated containers can create hazardous situations, cause messes, and result in additional charges. Please ensure your lids are always fully closed and all materials are sorted correctly. See the tips below to help

#### Train, Educate & Monitor

manage your waste and avoid charges.

## **Sort Properly**

Place only accepted recycling and organic materials in the corresponding containers. Printable signs are available at cityofwoodland.gov/SB1383 to post on or above indoor bins reinforcing proper sorting behavior. Assign staff to monitor and remove any improper materials from each bin to prevent contamination.

# Manage Cardboard

Always break down cardboard boxes to save space in your recycling container. Wet or waxed cardboard boxes can be placed in your organics bin as long as all tape and stickers are removed.

## **Anticipate Service Changes**

Before large events, clean-outs, or busy seasons, consider calling WM to request more frequent service, larger containers, or a one-time extra pickup.
