

# SAVE AS YOU THROW FOR WASTE COLLECTION

The Town of Crested Butte has adopted a Save As You Throw program for residential waste collection. This new approach scales pricing to the size of the residential trash cart and includes recycling at no cost.

In 2025, residents were offered the choice of three sizes of trash carts (96, 64, or 32-gallon). Wildlife-resistant carts were also offered. Residents selected their new WM cart size or chose to keep their existing WM cart. If residents did not respond, they retained their existing cart and the Town adjusted their account to the 96-gallon rate. Carts were delivered or swapped and the Town implemented the new pricing structure on residents' invoices.

Residents can change their cart size once per year in August for a delivery fee of \$25. To adjust your cart size, please contact WM in August by chatting with an agent on [wm.com](http://wm.com) or calling 970-349-1032.

## WM TRASH CART SIZES

96-gallon

64-gallon

32-gallon

\*Wildlife-resistant carts also available
