

WM Smart TruckSM Program in Evans

More power in each pickup. Less materials in landfills. Cleaner, greener, safer neighborhoods. It starts with learning more about what you toss into your carts. The new WM Smart TruckSM program gives you the notifications and insights you need to make it all possible.

How It Works

1

Your Materials

With the help of mounted cameras, WM Smart TruckSM technology captures footage of your carts as they are tipped into the truck during service.

2

Your Service

A dedicated team of technicians reviews the footage associated with your address to make sure your materials were thrown into the correct cart and were collected successfully.

3

Your Notifications

If a cart associated with your address is overloaded or non-acceptable material is found, we'll send you a notification with details.

Following the 60-day educational period (beginning October 1, 2023), you will be charged \$3.59 on your next utility bill when you overfill a trash/recycling cart or contaminate your recycling

Always Working for a Sustainable Tomorrow

Less materials in landfills and litter on your street. More information in your inbox. The new WM Smart TruckSM program is designed to create cleaner, safer communities while giving you more visibility into your service than ever before.

Stay Clear of Charges

As of December 1, 2023 you will be charged \$3.59 when you overfill a trash/recycling cart or contaminate your recycling.

Here's how to pave the way for this change:

1

Take care of your waste and recycling the right way – waste less by reusing, donating and recycling right to prevent contamination.

2

Be sure all waste fits in carts with lids closed. Keep contamination out of recycling. For a list of acceptable recyclables, visit [wm.com/recycleright](https://www.wm.com/recycleright)

3

Need to add a cart? Let's find a better fit together. Call the city at 970-475-1170 to explore your options.

Tips for Smart Tossing

Keep a lid on overages

All materials must fit in your cart, and the lid must be fully closed.

Recycle right

Put materials in the right carts – never mix trash and recyclables. **Follow these three simple rules:**

Recycle empty and dry bottles, cans, papers and cardboard.

Keep food and liquid out of recycling.

No loose plastic bags and no bagged recyclables.
