

# Thanks For Keepin' It Clean, Carson City!

Together we're reducing our city's landfill waste by diverting yard waste from Carson City residents to Full Circle Soils & Compost to be recycled. Thank you to the whopping 20,000 residents for sending only clean yard waste materials, so we can continue making healthy, all-natural products.

*Join The Full Circle Movement From the Ground Up!*

Contributing to our Carson City Green Waste efforts starts with your garden soil. Buy Nevada-made Full Circle products at **Greenhouse Garden Center** or directly from Full Circle Soils & Compost.

## *A little bit about us...*

For over **20 years**, our family has made local Nevada compost, soils, and mulches so Nevada gardeners, homeowners, farmers and landscapers can grow happy and healthy plants. Thanks to our partnerships with Waste Management, Reno, and Carson City, we recycle **thousands of truckloads** of organic waste, keeping useful material **out of the landfill**. We **LOVE** what we do and are thrilled to share our products with you!

### *Visit Greenhouse Garden Center Today*

*Greenhouse Garden Center is Carson City's local source for Full Circle products and everything else gardeners need to succeed.*
