## LYON COUNTY RESIDENTIAL WASTE SERVICE GUIDE

*A Toolkit to Manage Your  
Services Throughout the Year*

## Welcome to WM

Dear Lyon County Resident,

We are thrilled to serve the waste disposal needs of your family and community. This guide is designed to help you get started and serve as a quick reference for the range of services available to you throughout the year. Whether it's weekly trash pickup, bulk item disposal, or special cleanup programs, we strive to meet your needs while supporting a cleaner, greener Lyon County.

In addition to the disposal options outlined here, we encourage you to use the **My WM App** or set up a WM account, which will enable you to manage your services anytime, from any device (see the reverse side for details). For additional information and the latest updates, visit **[home.wm.com/lyon-county](https://home.wm.com/lyon-county)**.

Thank you for choosing WM.  
We're proud to serve you!

## LYON COUNTY SERVICE RATES

Visit **[home.wm.com/lyon-county](https://home.wm.com/lyon-county)** or scan the QR code to view rates. As a valued WM customer, you can dispose of recyclables, car batteries, batteries, and waste oil at our transfer stations at no additional charge.

## CURBSIDE SOLUTIONS

For a small monthly fee, Lyon County customers may rent an additional cart to containerize their extra seven bags of weekly waste. Containerizing waste helps reduce windblown litter and keeps scavengers out. Consumer-grade carts purchased at hardware stores are not intended for use with automated collection trucks and may be damaged or destroyed.

WM-provided carts are designed to ensure safe and efficient collection. They are durable and engineered for our trucks to easily grip and unload, making the process smoother and more reliable. If your WM cart is damaged, contact customer service to request a replacement. WM offers one free replacement of a WM cart per year at no additional charge.

## MANAGING EXTRA WASTE

WM is committed to enhancing the cleanliness of Lyon County's neighborhoods by offering three alternative ways to dispose of waste at no additional cost.

### Weekly Extra Waste

Residents can set up to one cubic yard or six 32-gallon bags, small boxes, or bundles of extra waste for pickup weekly. Service is available to all customers with a standard 96-gallon service level. Items should not exceed four feet in length and must weigh under 75 pounds.

### Waste Vouchers

WM also provides one voucher to help customers dispose of up to four cubic yards of waste at a WM transfer station in Dayton, Silver Springs, or Fernley. Refer to the reverse side for hours of operation and address details.

### Neighborhood Cleanup

Residents can dispose of up to two bulky items free of charge, twice a year. To request pickup, contact WM (see reverse for information) at least 48 hours in advance. Only the following items will be collected: one chair, one couch, one washer, one dryer, one water heater, up to four tires, one box spring, or one mattress.
