

FREQUENTLY ASKED QUESTIONS

Q. Can I use carts other than the carts provided by WM?

A. No. The carts provided by WM are designed to work with our trucks and personal carts will not be serviced as they may be crushed or damaged.

Q. Should I set out my carts if they're not full?

A. Your trash cart should be set out at the curb weekly. You may wait until your recycling cart is full before setting it out on your scheduled recycling collection day.

Q. What if I have extra waste that won't fit into my trash cart?

A. If the lid of your trash cart cannot close, it is considered overfilled, and you will need to use an excess waste option (see excess waste section of brochure) to avoid any fees.

Q. What happens if a cart is stolen or damaged?

A. Contact customer service at 775-329-8822 to replace or repair your cart.

Q. What should I do if I move?

A. Call customer service at 775-329-8822 to cancel service and schedule cart removal. Otherwise, billing may continue, and you may be responsible for lost or stolen carts.

Q. What do I do if I miss my pickup?

A. If a pickup is missed, we recommend you wait until your next pickup day and use excess waste stickers for any overflow. If this does not work for you, please call customer service at 775-329-8822 to discuss additional options.

Q. How do I find information on my collection day?

A. Download the My WM App for Android and iPhone or access your online account by going to www.wm.com. Trash is collected weekly, and recycling is collected once every 2 weeks.

Q. Do recyclables have to be cleaned prior to placing them in a recycling cart?

A. Yes, but they do not need to be perfectly clean. Plastic containers, cans and glass bottles should be wiped clear of food debris and liquids dumped out, so they do not contaminate paper products in your cart. Paper products or cardboard that has been stained due to food or liquid residue (such as greasy pizza boxes) should not be placed in the recycling.

Q. Does WM accept bagged recyclables?

A. No. Plastic bags and film plastic can damage sorting equipment and create hazards for employees. Plastic bags are the number one contaminate in recycling carts. It is important to empty your recyclables loosely into recycling carts. Bagged recyclables are considered trash and contamination fees might be applied.

Q. How do I know which cart to use for recycling?

A. Recycling carts in the Sparks area have a blue lid.

Q. What do I do if my landlord doesn't offer recycling?

A. Residents can drop off recycling at the Eco Center free of charge. Cardboard drop-off is at 1100 E. Commercial Row. Mixed recyclables can be deposited in the yellow bins at 1391 E. Commercial Row. Please follow residential recycling guidelines.

OTHER INFORMATION

CONNECT AND LEARN

Recycle Often, Recycle Right

When you place the right materials in the right cart it benefits the whole community and protects the environment. When you place the wrong materials in a cart it can harm the environment, injure workers and result in additional charges to your account.

Learn more about recycling right at www.RenoRecycles.com.

Schedule a Tour at the Eco-Center or Schedule a Group Presentation

If you would like to schedule a tour of our recycling facility or have a Recycling Education Rep present to your community group, class, or HOA please visit RenoRecycles.com to fill out our online form.

COMPRESSED NATURAL GAS TRUCKS

Our Compressed Natural Gas (CNG) fleet continues to grow. These trucks have 20 percent lower greenhouse gas emissions compared to standard diesel engines and they are much quieter.

WASTE DISPOSAL

EXCESS WASTE

Lockwood Landfill

City of Sparks customers may dispose of one standard pickup truck load of waste four times per year at no additional cost. Customers must show a recent WM service bill (or have identification matching the service address on their bill) and be current in their payments. Dumps made by tenants or on behalf of another customer require written permission. A form is available on the Residential Services Tab in sparks.wm.com.

Hazardous Waste

Household Hazardous Waste such as paint, electronics, motor oil and other hazardous materials do not belong in your trash or recycling carts. These items require special handling to protect our environment.

WM accepts certain hazardous waste items for an additional fee. Please contact 775-329-8822 to determine what will be accepted and where to take it. Visit our friends at ktmb.org to find additional resources for disposing of hazardous waste.

EXCESS WASTE AT THE CURB

Excess Waste Stickers

Use one of the 20 Excess Waste Stickers mailed annually. Place it on a 32-gallon bag, box or bundle (not to exceed 3' x 3' x 3' or 50 pounds) and place curbside with your trash cart. Bags or bundles without a sticker will be left at the curb. Additional stickers can be purchased by calling 775-329-8822.

Spring and Fall Excess Waste

During the months of May and November, customers may place an additional six bags, boxes or bundles (not to exceed 3' x 3' x 3' or 50 pounds) outside the container for collection on their service day without using an excess waste sticker.

Choosing the Right Container Size

If you regularly overfill or underfill your carts, call customer service at 775-329-8822 to discuss changing cart size or adding/removing a cart.
