

Do You Know What Happens to the Items You Recycle?

When You Sort Recyclables Correctly You Are Giving Them a Second Life

Recycle only clean, dry bottles, cans and paper in the blue lid cart. Keep items loose. No plastic bags allowed.

WM picks up your recyclables on your scheduled service day.

Recycled items are sorted at the local WM recycling facility.

Recyclables are made into new products for consumers.

Placing your recycling in the blue lid cart keeps these materials out of our landfills, which helps our environment by preventing emissions of many greenhouse gases and water pollutants, and saves energy.
