

Simi Valley Landfill and Recycling Center

Safety and Environmental Enhancement Measures

Recycling

- Green and wood waste recycling
- Concrete and asphalt recycling
- Construction and demolition recycling
- Metal recycling

Falcons

- Falcons serve as air patrol to scare sea gulls and other bird pests away from active operations

Liquefied Natural Gas (LNG) Vehicles

- 40 LNG powered collection vehicles
- Recipient of Clear Air Leadership Award from Ventura County Air Pollution Control District

Household Hazardous Waste/Electronic Waste

- Environmental Collection Center provides a convenient location in eastern Ventura County to drop off unwanted electronic goods and household hazardous waste such as anti-freeze, batteries, oil and paint

Gas-to-Energy Generators

- Two 16-cylinder landfill gas-to-energy generators transform methane gas into electricity to power 2,500 homes each day
