

Healthcare Industry OSHA, EPA & DOT Training

Waste Management is here to support your training efforts. We can provide educational Occupational Safety and Health Administration, Environmental Protection Agency and Department of Transportation training within a powerful web portal that supports our virtual, on-demand training series. We have categorized the safety, environmental and transportation training under each of the three agencies below.

Occupational Safety and Health Administration (OSHA)

- **OSHA Guidance Manual:** A written reference guide with educational information on OSHA's Bloodborne Pathogens Standard and Hazard Communication Standard.
- **Bloodborne Pathogens Training:** A convenient and affordable educational program that provides information related to the OSHA's Bloodborne Pathogens Standard.
- **Hazard Communication (HazCom) Training:** Educational information on OSHA's Hazard Communication Standard, including the 2012 update and its applicability in healthcare.
- **OSHA Hazardous Waste Operations and Emergency Response (HazWoper) Training:** An educational module that provides awareness level training on OSHA's hazardous waste operations and emergency response requirements.

Environmental Protection Agency (EPA)

- **EPA Resource Conservation and Recovery Act (RCRA) Training:** An overview of the EPA's hazardous and pharmaceutical waste requirements and waste practices.
- **Recycling Opportunities Training:** A presentation that discusses recycling practices and opportunities within a healthcare setting.
- **Regulated Medical Waste (RMW) Minimization Training:** Information on what you can do to help minimize the amount of regulated medical waste your facility generates.

Department of Transportation (DOT)

- **DOT Hazardous Materials (Hazardous Waste/Pharma) Training:** A program providing educational information on DOT's hazardous and pharmaceutical waste collection, manifesting and transportation requirements and recommended practices related to such requirements.
- **DOT Medical Waste Training:** A program providing educational information on DOT's medical waste collection and transportation requirements and recommended practices related to such requirement.
