Re: Cultural Resources Review of Skyline Landfill, Dallas and Ellis Counties, Texas; AVO 26404

Dear Mr. Martin;

This letter requests your review of the proposed 666-acre Skyline Landfill Dallas and Ellis Counties, Texas pursuant to the National Historic Preservation Act of 1966. The project is subject to compliance with Section 404 of the Clean Water Act. The proposed facility is located near the community of Ferris south of Ten Mile Creek which is a tributary to the Trinity River. According to the Texas Historical Commission's Archeological Sites Atlas, there four previously-recorded historic-age archeological sites located within boundaries of the proposed landfill (41EL219, 41DL359, 41DL360, and 41DL361). All four of these sites were reported in a 1994 archeological survey report by Michael W. Davis, James T. Jones and Abbey Treece, entitled *An Intensive Cultural Resources Survey and Assessment to Support Federal Permitting of the Proposed Expansion of the Skyline Landfill, Dallas and Ellis Counties*, which covered approximately 490 acres of the current project. The Atlas does not include site forms or other detailed information on these sites. Moreover, since the survey was conducted prior to the Texas Historical Commission's survey standards, the survey methods are not known.

Ferris, Texas was the site of several brick manufacturers before World War I. An examination of the USGS Ferris, 7.5 min. Series Quadrangle map (attached) shows numerous clay pits and buildings within the proposed project area, presumably related to brick manufacture; however, no previously recorded historic structures exist within the project boundaries.

Please provide cultural resources clearance or recommendations for further consultation, if necessary.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Half Associates, Inc.

Leonard R. Voellinger, RPA

SKYLINE LANDFILL

APPENDIX IIG

TPDES PERMIT

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Texas Pollutant Discharge Elimination System Storm Water Multi-Sector General Permit

The Notice of Intent (NOI) for the facility listed below was received on November 8, 2011. The intent to discharge storm water associated with industrial activity under the terms and conditions imposed by the Texas Pollutant Discharge Elimination System (TPDES) storm water multi-sector general permit TXR050000 is acknowledged. Your facility's TPDES multi-sector storm water general permit number is:

TXR05U147

Coverage Effective: December 12, 2006

TCEQ's storm water multi-sector general permit requires certain storm water pollution prevention and control measures, possible monitoring and reporting, and periodic inspections. Among the conditions and requirements of this permit, you must have prepared and implemented a storm water pollution prevention plan (SWP3) that is tailored to your industrial site. As a facility authorized to discharge under the storm water multi-sector general permit, all terms and conditions must be complied with to maintain coverage and avoid possible penalties.

Project/Site Information:

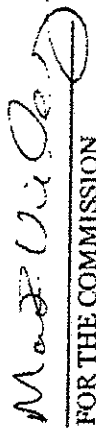

RN100542232
SKYLINE RECYCLING AND DISPOSAL FACILITY
1201 N CENTRAL ST
FERRIS, TX 75125-2101
DALLAS COUNTY

Operator:

CN603572132
WASTE MANAGEMENT OF TEXAS INC
PO BOX 400
FERRIS, TX 75125-0400

This permit expires on August 14, 2016, unless otherwise amended. If you have any questions related to processing you may contact the Storm Water Processing Center by **email at SWPERMIT@tceq.texas.gov** or by **telephone at (512) 239-3700**. For technical issues, you may contact the storm water technical staff by email at swgp@tceq.texas.gov or by telephone at (512) 239-4671. Also, you may obtain information on the storm water web site at http://www5.tceq.texas.gov/wq_dpa/. A copy of this document should be kept with your SWP3.

Issued Date: November 29, 2011
